

NACO FUNDS ARE SENT TO MEXICO CITY FOR SAFETY

BISBEE PAPER ON NACO'S TROUBLES

Says All Is Now Quiet, But That Troops Are There and Officials Are Nervous

MEXICANS FEARING TROUBLE IN SONORA

Bisbee Review Says Immigration Men Say Mexican Families Are Leaving.

Bisbee, Ariz., June 23.—According to the Bisbee Review, as an act of precaution the funds in possession of the Mexican collector of customs have been shipped to the National Bank of Mexico.

A company of Mexican soldiers in command of Capt. Cisneros, arrived at Naco, Sonora, from Cananea, on a special train at 4 o'clock yesterday morning and are camped across the line, where they are guarding the Mexican custom house, postoffice and federal telegraph building from possible attack.

Yesterday afternoon the commanding officer at Ft. Huachuca received orders from the war department at Washington to hold two troops in readiness to proceed to the border immediately in the event of trouble across the border.

On the surface everything is quiet and peaceable at Naco. A visit of a Review correspondent yesterday afternoon found the inhabitants going about their daily vocations as usual, and the excitement of the night previous, occasioned by information received by the Mexican consul that an attack by revolutionists could be expected was entirely abated.

Mexicans Come to Arizona. That the Mexican authorities placed some credence in the report is evidenced by the presence of the soldiers, who will be kept in Naco until after the elections are held on June 26.

The American immigration officers on this side of the line report the crossing of several Mexican families to this side of the line. In conversation the women vouchsafed the information that trouble was expected in Sonora. Some of them fixed the date June 24.

CONGRESS DISAGREES ON COST OF LIVING

Washington, D. C., June 23.—Republicans and Democrats do not agree as to the causes for the increase in the cost of living between 1900 and 1910. The majority report of the special senate committee which has been investigating the question was submitted to the senate today by Lodge, chairman. A meeting was held prior to the presentation of the report and the minority members protested against the character of the findings. After a long argument, they were authorized to employ an expert to go over the report of the majority and prepare minority views.

Public Buildings Bill. By unanimous consent the house concurred in the senate amendments to the public buildings bill and the measure will be sent to conference.

Postal Savings Banks. After voting down several amendments the senate decided, 44 to 25, to concur in the house amendments to the postal savings bank bill and thus took the last legislative step necessary to the establishment of a postal savings bank in the United States. The measure

CHARLTON ADMITS MURDERING WIFE

New York, June 23.—Porter Charlton, husband of Mrs. Mary Scott Castle Charlton, whose body was found stuffed in a trunk taken from Lake Como, Italy, recently, was arrested as he stepped from the steamship Princess Irene in Hoboken today.

Charlton first denied his identity but, after being given "the third degree" admitted that he was the husband of Mrs. Charlton and then made a signed statement confessing the murder to the Hoboken police.

Charlton said he and his wife had been having supper together at the villa on Lake Como and they engaged in a violent quarrel. Charlton said his wife was one of the best women in the world, but had an ungovernable temper and she called him a vile name, and finally, when he could stand her abuse no longer, he attacked her with a wooden mallet.

The young man said he struck her over the head three times, knocking her unconscious and killing her as far as he knew.

He said he then placed the body in a trunk, which he threw into the water.

While Charlton was being sweated he became infuriated, and, drawing a revolver, tried to shoot chief of police Hayes. He was disarmed and a few minutes later confessed the crime.

Capt. Scott, brother of Mrs. Charlton, materially assisted the officers in effecting the capture of Charlton, whose careful description he had given. Capt. Scott took one glance at Charlton as the police were leading him to the station and said: "That's Charlton." Scott obtained a ten days' leave of absence and made it a practice to watch all incoming steamers.

Washington, D. C., June 23.—Paul Charlton, a law officer in the bureau of insular affairs, as soon as he heard that a man said to be his son, Paul Charlton, was arrested, left his office and departed from the city, presumably for Hoboken.

SOLDIERS WITHDRAWN FROM NACO; RURALES ACTIVE ALONG BORDER

Cananea Sonora, Mexico, June 23.—The 20 soldiers who went to Naco Tuesday morning have returned here. The rurales are now guarding Naco.

Chief of police Rafael Lopez has returned home. It is said there was no mystery about his absence. He has been visiting his parents at Altar.

Col. Kosterlitzky has returned to Naco after spending the night here. He goes to San Pedro from Naco.

Kosterlitzky's men number in all 60, and they are scattered from Agua Prieta, opposite Douglas, to Nogales, besides some being stationed at Magdalena.

These men are watching the line for smugglers who have been very actively engaged in bringing in arms and ammunition in small amounts, with one exception.

The report that 45 rifles were taken at Chivatera, including much ammunition, is denied by officials. Also that 12 rifles and ammunition were taken at a house in Buena Vista.

No trouble will surround the voting, officials say and they declare that any legal citizen has the privilege of voting, as it is on the Australian system and the ballots are folded up when placed in the ballot box. The anti-Diaz men will not be molested and will be permitted to vote, it is declared; in fact there never was any thought of not permitting them to vote for their favorite for the presidency, these officials say.

Several men who have been loud in their talk against the government have made their hasty exit from the city, as they do not wish any trouble and are now safely on the other side of the line.

DECLARES DIAZ HAS RUN HIM FROM MEXICO

Tucson, Ariz., June 23.—The Citizen this afternoon says that, declaring that he feared imprisonment because of friendship for Madero, a political opponent of Gen. Diaz, J. G. Higarrandia fled from Mexico City and is now in Tucson awaiting the arrival of his wife and daughters. He expressed the belief that his home and other property in Mexico City may have been confiscated before this by the government and fears that his wife and daughters may be taken from the train before reaching the border and thrown into jail for his alleged political offenses.

Higarrandia claims to have invented an aeroplane and to have demonstrated by dropping bombs on imaginary military camps its practicability in war.

He declares Madero is the choice of the people and, because he has been cast into jail friends throughout the provinces threaten an uprising.

Others say trouble will occur June 26th, the date of the Mexican elections.

An arrival from Sonora yesterday made the statement that there is a growing sentiment in Sonora among the Mexicans against the Chinamen, who are overrunning the country and taking the places of Mexican workmen.

The Mexican officers along the border do not appear to be alarmed, but there is no denying the fact that there is a growing feeling of unrest at present, but always noticeable around election times.

More Trouble Reported. Serious disturbances are reported to have taken place at Ciudad Porfirio Diaz, Coahuila, from where revolutionary leaders fled to Eagle Pass, Texas, to escape arrest.

It is said by the Mexican authorities that the newspapers printed in Spanish on the Mexican side of the border have been a large factor in stirring up the discontent now finding expression. The movement has been singularly free from expressions of animosity to elections, in marked contrast to the election riots of four years ago.

DOUGLAS CHAMBER OF COMMERCE IS ACTIVE. Takes Stand Against Printing News From the Mexican Border and Douglas Paper Takes Shot at the Chamber.

Under a two-column heading, "International Refuses to Suppress the News," the Douglas International says: "The Douglas chamber of commerce and mines directory should turn its attention to the legitimate work of boosting more patronage for the newspapers, which work day after day for the advancement of Douglas, rather than giving the newspapers advice. It would accomplish fully as much for the welfare of this city. There are two sides to the question of how far a newspaper should go in publishing reports of disturbances or threatened trouble in Mexico. One is that the publication of alleged trouble in that country necessarily tends to scare would-be investors and interferes with pending deals and development. The other side is the duty imposed on the newspapers, especially along the border, to keep its readers posted as to conditions in our neighbor republic. Should a newspaper suppress any reported trouble in Mexico and Americans or others should go across the line and lose their lives because of the suppression of these reports then the newspapers would most likely be accused of criminal negligence of their duty."

The International has published recent stories regarding threatened trouble in Mexico. That there is trouble or at least alarm in Sonora because of expected trouble is attested by the activity of the military forces in that state. This paper published one report from the publicity agent of the Douglas chamber of commerce and mines, who was in Mexico a few days ago, in which it said:

"An uprising assuming serious proportions has been discovered. Forty-five hundred rounds of ammunition were bought up in Douglas, Bisbee and Naco. Rurales have just taken into Cananea 2000, and many rifles confiscated from four Mexicans caught in the hills near Villa Verde, just north of the line, and being transported on burros. The prisoners are held at Nogales. Another was caught near Douglas and one other smuggler at Naco."

"Col. Kosterlitzky, with a band of rurales, came into Saucedo at noon and is spreading these troops on the border. He will be joined by others, marching overland. Six hundred soldiers were sent to Cananea from Culiacan. The date for the uprising is said to be San Juan's feast day next Sunday."

Besides the above this and other papers have published stories from the Associated Press, which now has a special representative in Sonora for the purpose of sending out to all the papers in the country served by that

have taken place at Ciudad Porfirio Diaz, Coahuila, from where revolutionary leaders fled to Eagle Pass, Texas, to escape arrest.

Frank Rich Has 22 Already Scheduled for the Coming Fall and Winter Season.

ALL ARE FROM THE SHUBERTS

It begins to look like Frank Rich made a good fall when he jumped out of the theatrical trust basket and fell into the lap of the Independents. Already he has received notice of the booking of 21 big attractions for the El Paso theater for the coming season, and he is positive that the list will be more than doubled before the season is over, giving El Paso the biggest list of attractions in its history.

In the past, when he booked with the "trust," manager Rich was lucky if he had half a dozen bookings by the first of July. It is yet two and a half months or more before the season will open at the El Paso, and yet 21 shows are already booked. All these are Shubert or "Independent" shows, as the trust has so far made good its threat not to book any show with any house playing independent attractions. The house managers think the trust will be brought to terms, however. These house managers are willing to play anybody's show and the Shuberts are willing to have the trust shows booked by managers playing their attractions, but the trust is holding off and trying to get houses of its own.

Already Booked Here. The list of independent attractions secured for El Paso from the Shuberts includes "The Dollar Princess," which has been running a solid year on Broadway, New York, at the Knickerbocker.

"The Arcadians," which H. C. Myles writes Mr. Rich is the finest show he has seen in five years. "The Prince of Pilsen," a musical show that has been popular for years, but has never been here because it was an "Independent" booking and El Paso has always been a "trust" show town. Rose Stahl in her famous creation of "The Chorus Lady," one of the "classics of the American stage." "The Third Degree," the dramatization of the strong story recently printed in The Herald as a serial. "Madame X," a drama that has been one of the decided hits of the year in New York, in which a son defends his mother from a murder charge without knowing her identity until the trial is ended. "The City," a great political play, second "Max of the Hour" production; Lillian Russell in a new play, "Going Some," a musical comedy that has had the metropolis going some, launched as a sensation. "The Soldier of the Year," a play that has been sold for it almost every night; Frederick Warde, the eminent Shakespearean; Walker Whiteside, a romantic actor, last seen here in "The Soldier of the Year" at the old Grand opera house. "The Virginian" by an all star cast; Billy Clifford, in a new play; Louis Mann in a new play; Gertrude Elliott, petite Gertrude, in something new; "The Girl of the Year" from Reciters, a play that is said to be somewhat shocking, but one which never shows to empty benches; "Cameo Kirby," "The Time, the Place and the People," "The Girl of the Year," and "The Girl Question," and one of their best efforts; "Hanson's Superbia," and "The Gentleman from Mississippi." The latter is a strong political play and is another dramatization from a serial printed a short time ago in The Herald.

Possible Plays. Grace George is not yet booked, but she will be back in El Paso this year, as her husband, Wm. A. Brady, has joined the independents in their campaign against the trust; William Collier, one of the most delicious of American comedians, will also probably be here; and possibly Blanche Ring and Marie Dressler, as both are controlled by the independents; Mary McLaughlin and Marie Cahill—cute, funny, delicious; Marie are more likely to be here. Both are now "Independents."

As a sample of what may be expected for the season—of course they will not all be here, but many of them will—the following list of attractions and stars controlled by the Shuberts is given:

The Shubert Attractions. "Maneuvering in M. M. World," Louise Gunning in "Marcelle," Bertha Kalish in repertoire. Mme. Oily in repertoire. Mme. Nazimova in repertoire. "The Paradise of Mohammed," Mabel Harrison and Harry Conner in "Lulu's Husband."

James T. Powers in "Havana," Florence Roberts in a new play. Eddie Fox in the new revue, "Up and Down Broadway."

Frank Daniels in "The Belle of Brittany," John Mason in "The Witching Hour," Fritz Schaff in a new opera. Lew Dockstader. "The Actor Girl," William Jones in "Going Some," Walter Pavarsham in "The World and His Wife."

Cyril Scott in "The Lottery Man," Forbes-Robertson in "The Passing of the Third Floor Back" (under his own direction). "Sothern and Marlowe in repertoire. (Under their own direction). Maxine Elliott in a new play (under her own direction). Laurence Irving and Mabel Hackney in new play. Charles J. Ross in "High Life in Jail," "The Wolf," "The Blue Mouse," "The Ringmaster."

"Gilda," Clyde Fitch's last play, "The City," Sidney Drew in "Billy," "The Prince of Morocco," "The Entering Wedge," "The Paradise of Mohammed," "Menkl," a new comic opera.

When the matter of paying North Campbell street was taken up, Judge J. M. Goggin said: "The vestry of St. Clement's church has directed me to enter a protest, not against paying, but against this particular paving. They want a better paving."

Geo. F. Tilton entered a protest against paving.

Percy McChes said: "For five years this man has been an obstructionist. He goes into an unimproved district, buys corner lots and lets his neighbors improve. He will not give up a dollar for anything."

Mr. Meyer, of the Petrolite company, said: "The vestry of St. Clement's church has directed me to enter a protest, not against paying, but against this particular paving. They want a better paving."

Geo. F. Tilton entered a protest against paving.

More Territory to Be Taken in and Schools Put Under Mayor's Supervision.

FIRE MARSHAL IS NOT NAMED

Thursday morning the city council passed a resolution to apply to the state legislature to amend the charter of the city in accordance with recommendations made by mayor Joseph U. Sweeney in his last annual message, delivered just prior to his retirement from office in April. J. I. Hewitt presided as acting mayor.

It is recommended that the salary of the mayor be increased, though the amount to which it is intended to raise it is not mentioned. It is further recommended that the public schools of the city be placed under the direct control of the mayor and city council.

The annexation of suburban property to enlarge the city and increase its taxable value as well as its area is recommended. This will relieve the city of making improvements and receiving no taxes from those who are at least indirectly benefited.

The election for the purpose of issuing waterworks bonds in the sum of \$375,000 held last Tuesday was declared carried by a majority of 287 votes, after a canvass of the vote was made.

North Campbell street was ordered paved from Main street to Hill street with petroleolithic pavement.

The ordinance taxing hucksters and peddlers was placed on its second reading and adopted.

Alderman Blumenthal said that in the future all band concerts at Cleveland square will end by the playing of the "Star Spangled Banner" and he wanted to move the flagpole from San Jacinto plaza to the new park in order that the flag could be raised there as the national anthem is played. It is probable, however, that a new pole will have to be erected there, as there is some objection to moving the old pole.

The appointment of a fire marshal, which was to have been taken up and disposed of was not mentioned and some of the aldermen are said to be of the opinion that a younger man than Dan Kelly should be appointed to the position, as his duties will require his attendance at all fires both day and night.

The City's Health. The weekly report of the city health officer, W. H. Anderson, showed a total of 37 deaths, of which 10 were Americans, 27 Mexicans; 16 births, of which 11 were Americans and five Mexicans. The cases of contagious diseases reported existing are: Whooping cough, 70; measles, 12; typhoid fever, 14; smallpox, five, though all of these smallpox cases have been dismissed since the report was prepared. Two hundred and eleven inspections were made of meat markets, 110 of dairies, 22 of slaughter houses, 78 of fruit and vegetables. Ten rooming houses and hotels were inspected.

One hundred cattle, 14 hogs, 40 calves and 82 sheep were inspected. Four hundred and seventeen pounds of fruit and vegetables, and 371 pounds of meat were condemned and destroyed. Five hundred and forty-two persons were vaccinated and 1225 certificates issued during the week.

Sewer Work. The report of sewer commissioner J. W. Hadlock for the week showed 109 feet of sewer pipe laid in block 44, Alexander addition; 100 feet of 8-inch sewer cleaned on Ninth street, 20 flush tanks and manholes examined, eight y's put in and four plugged sewers cleaned.

The report of the city assessor and collector for the month of May showed collections amounting to \$3265.73.

To Buy Property. Alderman Blumenthal recommended the purchase of three lots in East El Paso at a cost of \$200 per lot. These lots are located near the pumping plant for the purpose of storing sewer pipe and other material. The council authorized this purchase.

On motion of alderman Clayton, the mayor and chairman of the finance committee were authorized to take action relative to the city printing for the year. No contract has been let as yet.

Sweeney Employed. A petition from citizens requesting the employment of former mayor Joseph U. Sweeney to act as special counsel before the fire rating board at Austin was granted.

Acting mayor Hewitt recommended that Richard Caples be granted permission to put bay windows in his new building at the northwest corner of Mesa avenue and San Antonio street. Granted.

Richard Keays was granted time to change the stairway on the White House rooming house on Myrtle avenue near the corner of Stanton street on condition that he lowers the sidewalk.

Paving Ordered. When the matter of paving North Campbell street was taken up, Judge J. M. Goggin said: "The vestry of St. Clement's church has directed me to enter a protest, not against paying, but against this particular paving. They want a better paving."

Geo. F. Tilton entered a protest against paving.

Percy McChes said: "For five years this man has been an obstructionist. He goes into an unimproved district, buys corner lots and lets his neighbors improve. He will not give up a dollar for anything."

Mr. Meyer, of the Petrolite company, said: "The vestry of St. Clement's church has directed me to enter a protest, not against paying, but against this particular paving. They want a better paving."

Geo. F. Tilton entered a protest against paving.

But a New Grand Jury Is Ordered at Once to Return New Batch of Findings.

OTHERS DID NOT HOLD GOOD

Chicago, Ill., June 23.—Judge Landis, in the United States district court here today sustained the denunciations of the so-called beef trust to the indictment charging combination in restraint of trade. A new grand jury was ordered to renew the investigation of the packing companies.

The indictment was drawn on evidence secured by agents of the federal government and was against the National Packing company and 10 subsidiary companies. Congratulations were exchanged when Judge Landis announced that the indictment would not stand, but the demonstration came to a sudden end when the court added: "Call a special grand jury venire of 75 men for July 14, Mr. Clerk."

The body will be ordered to hear testimony with a view of finding valid indictments against the packing companies.

The indictment quashed today failed to show, in the view of Judge Landis, that any offense was committed within the last three years.

They did not show also, that during the statutory period the defendants engaged in interstate commerce.

The general averment that the packing companies are engaged in a combination in restraint of trade, the court declared, is a mere conclusion.

AEROPLANIST IS HURT IN A FALL

London, England, June 23.—Capt. F. S. Cody, an aviator, when making a flight at Aldershot today, fell from a height of a hundred feet and was seriously injured.

The aeroplane was caught in a gust of wind, and, becoming unmanageable, plunged to the ground.

Cody was pinned beneath the wreckage. Cody, an American by birth, is employed by the British war department to teach its officers aeronomy.

TROOPS FIGHTING FOREST FIRES

Albuquerque, N. M., June 23.—Two troops of cavalry from Fort Apache, Arizona, were ordered last night to fight the forest fires in the Blue range mountains 60 miles from Holbrook, Ariz. The fires are reported beyond control.

STATEN BARY DIES UP AT CLOUDCROFT. Cloudcroft, N. M., June 23.—Mary Elizabeth, infant daughter of Dr. and Mrs. Burleson Staten, died today of spinal meningitis.

SEATTLE, WASH., June 23.—The Minutemen Moros have murdered Dutch traders under conditions which may develop into an outbreak so serious that a demonstration by troops from the military station at Camp Jolo may be required, according to a report by steamer.

A party of Moros from the Tawi group of islands, being driven by storms to an island of the Celebes group, murdered three traders and made off with valuable loot. A Dutch gunboat gave pursuit and found the murderers on Manusmanan island of the Philippines.

Philippine scouts made an attempt to capture the murderers, who withdrew to the center of the island and notice was sent by the chief of the headmen's tribe that the murderers would not submit to arrest and the entire population of several hundred would resist.

The commander at Jolo immediately dispatched two companies of infantry to aid the constabulary.

The result had not transpired when the steamer sailed.

It is reported that natives on the island of Manusmanan are well armed.
